

2006 Poster Art Contest

"Take Time to Enjoy the Flowers"

Diana Joroski – 3rd Place

Diana began painting with watercolors many years ago. Diana wanted a break from her work program and went two days a week to an art program instead. This is where she found her talent and love for painting. Diana has developed a distinct mosaic style that is abstract and refreshing using vivid and vibrant colors. Diana gets her ideas from many sources, mainly from her environment including nature, design books and her imagination.

When Diana is painting, she listens to opera music in the background. She says it relaxes her "thinking mind". When Diana isn't painting she works five days a week in a work activity center. She enjoys singing her favorite female country songs, writing creative stories and watching musical videos. When you experience Diana's paintings you can immediately tell that she is happy and full of life.
